## WORKFLOW INNOVATION GROUP 2010

**The Mediasmiths invite you to Cardiff to discuss your day to day media workflow challenges and to take a look at new ways of working.**

Tapeless working is here with a vengeance, and 3D is coming at us at a rate of knots - so there are some real practical challenges ahead, even for the best prepared organisations.

The Workflow Innovation Group is a highly unofficial and probably irregular gathering, where we're looking to get pragmatic people together to come up with some answers to those challenges - along with some of the smaller and more

innovative solution suppliers who have got some ideas on how they can help. The idea is to meet up, talk about problems and solutions, share ideas, get people together who can help each other, look at some demos and all in a relaxed atmosphere - no hard sell, no bull. Oh, and maybe grab a few beers together afterwards. We hope to see you there.

**RSVP**
